CIO NORDICS in partnership with ICT LEADERS FINLAND

ICT Leaders Finland
tietohallinnon johtamisen ammattilaiset

ILF (ICT Leaders Finland) affiliated with CIO Nordics is an independent association of CIOs, not committed to any specific framework, model, or method and nonprofit in nature. Out of ILF's 14 board members, 11 have worked or currently work as CIOs.

ILF is a member of the Finnish Information Processing Association. With expertise, neutrality, and independence, ILF is a natural partner for conducting this research with CIO Nordics.

CIO Nordics is conducting a Swedish study with the assistance of Tomi Dhalberg, Chairman at ICT Leaders Finland (ILF) - a similar study conducted in Finland in late 2024.

Tomi Dahlberg is an ex-CIO with 15+ years experience as a CIO, the honorary chairman of ILF and an Information System Science professor at Turku School of Business. He will calculate the average perceived importance of each matter from the responses and will present the results with comments at the CIO Nordics event on the 8th April at Grand Hotel in Stockholm.
